PROFESSIONAL SUMMARY

B.Tech IT student and full-stack developer who ships real products end to end: live business websites, a patent-pending AI-powered medical app, and freelance client projects. Strong in React/Next.js, TypeScript, Flutter and Supabase, with hands-on Python ML experience and proven client communication. Seeking a software development internship to build impactful, user-focused products.

TECHNICAL SKILLS

Languages:	Python, JavaScript, TypeScript, Dart, Java, C++, C, SQL, Bash
Web & Mobile:	React.js, Next.js, Express.js, HTML, CSS, Flutter, Material Design 3
AI / ML:	Model Training, Data Preprocessing, Streamlit
Backend & Tools:	Supabase, PostgreSQL, REST APIs, Git, GitHub, Docker, Vercel, SEO
Design:	UI/UX Design, Graphic Design
Professional:	Project Management Fundamentals, Problem Solving, Leadership, Communication, Teamwork

EXPERIENCE

Junior Developer (Part-Time) — Luxury Trip India — **2025 – 2026**

- Designed, developed and deployed ramkashiyatra.com end to end, creating a lead-generating travel website that supported business growth.
- Maintain and update the company website, keeping content accurate and performance smooth.
- Implemented SEO strategies that improved search visibility and organic traffic.

Freelance Web Developer — **Freelance**

- Designed and delivered a responsive website for a coaching institute, covering course listings, faculty profiles and enquiry forms.
- Currently building Benam, a premium e-commerce marketplace for a client (see Projects).
- Own the full client lifecycle: requirements, communication, revisions and final delivery.

Hackathon Participant — Team Projects — **National Hackathons**

- Collaborated in teams at IIT Goa Hack Overflow, Hack for Green Bharat and Build for Bharat 2026, building and presenting solutions under time pressure.

PROJECTS

AyuNetra — Medical Data Management App (Patent Pending) — **Flutter | Supabase | AI/ML**

- Built a Flutter app for storing medical prescriptions with dual patient/doctor authentication, prescription image storage and a Supabase cloud database.
- Developed AI-powered analysis using a custom AI/ML model for automatic prescription reading and patient briefing, with a Material Design 3 UI.

WorkForce AI — SaaS AI Agent Platform — **Startup Project**

- Designing a subscription dashboard of specialised AI agents (HR, Sales, Marketing, Support, Finance) that handle business tasks through natural conversation, including regional Indian languages and Hindi-English code-switching.

Benam — Premium E-Commerce Marketplace (benam.vercel.app) — **Freelance | Ongoing**

- Building a marketplace for handmade, cultural and luxury products with a differentiated concept; deployed live on Vercel.

Ram Kashi Yatra — Travel Website (ramkashiyatra.com) — **Live | Production**

- Full-cycle build of a live travel website: design, development, deployment and enquiry-focused lead generation.

Coaching Institute Website — **Freelance**

- Responsive client website with course listings, faculty details and enquiry forms, delivered end to end.

Personal Developer Portfolio (my-portfolio-blue-one-17.vercel.app) — **Vercel**

- Portfolio site showcasing projects, skills and contact details, deployed on Vercel.

EDUCATION

B.Tech, Information Technology — Chandigarh University — **2024 – 2028**

Class XII — St. John's Convent School, Delhi — **2023 – 2024**

Class X — St. John's Convent School, Delhi — **2022 – 2023**
